## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/21/06 has been entered.

### ***Allowable Subject Matter***

2. Claims 1-11 have been allowed.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 6-11, the prior arts of record to Leak et al., Mao et al., and Pivnichny et al. either alone or combine fails to teach or suggest a broadcasting apparatus, a receiving apparatus and their corresponding methods including at least the step of generating, from the content information, instruction information for automatically selecting a plurality of selection items, described in a language for data broadcasting and included in the pages of content information, from the content information, the generated instruction information including a selection order list which covers selection operations for all of the selection items to check whether the plurality of pages are output corresponding to the selection operations; and the content information is output and being confirmed by a broadcasting business operator.

Art Unit: 2623

Thompson (now cited) also discloses an operator to monitor the network operations for fault; however, Thompson is silent on the step of automatically generating a selection order list for the operator to monitor and perform maintenance the network.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Robbins et al., Hylton, and Lightfoot et al (PTO-892 attached) disclose systems related to system monitoring using an operator with different approaches.
